

El Camino To Proceed With Building Plans

In spite of rising building costs construction of additional permanent buildings at El Camino College will be resumed on a modified schedule as a result of action of the college Board of Trustees. At the regular meeting of the Board held Tuesday night, November 14, at the college the trustees accepted a recommendation of Superintendent Forrest G. Murdock for the immediate construction of an addition to the shop building at an estimated cost of \$40,000. Resumption of the college building cost survey made by Murdock and Director of Business Carl G. Artwedson in conference with architects.

INSTRUCTIONS ISSUED
The board of trustees also issued instructions to the architects to proceed with plans and specifications for a library building and life science unit. The estimated cost for the library, including architects' fees, equipment and landscaping, is \$468,500, and for the life science building, \$262,600. Tentative schedule adopted by the board calls for commencement of construction of these two units early next summer.

Postmaster Asks Public's Cooperation on Yule Mail

Cooperation of the public to assure delivery of all Christmas mail before December 25 was sought this week by Mrs. Clara Conner, Torrance postmaster. In an appeal to the public for correct addressing and early mailing, Mrs. Conner said she expected this season's yule mailing will smash last year's record high of 1,600,486 cancellations. Christmas packages for distant points should be mailed by December 2, the postmaster advised. Christmas gifts for nearby points should be at the parcel post windows by December 9. Christmas cards destined for out-of-state should be deposited by December 15, and cards for local delivery at least a week before the holiday. "Please don't hold up your mailings until these dates, however," the postmaster pleaded. "Mail packages, especially, as

Former Air Force Pilot Recalled For Army Duty

An Air Force pilot and instructor during World War II, Lieutenant Charles T. Rippey Jr., 25, has been recalled to active duty and assigned to the 40th Infantry Division now training at Camp Cooke. A residential contractor in civilian life, Rippey lives at 1640 Post avenue with his wife, Patricia, and two children, Kathleen and Charles T. Rippey III. He is now attached to Battery A, 880th Field Artillery battalion. During World War II, he was graduated as an Air Force pilot on Aug. 4, 1945. He later became an instructor of Chinese Air Cadets at the Douglas Army Air base in Arizona.

CHARLES T. RIPPY JR. Returns to Service

County Acts To Acquire Park Site

With the intention of creating a park in the El Nido District, the County Board of Supervisors November 8 acted to acquire complete title to land adjacent to property already owned by the county at 182nd street and Hawthorne boulevard. When developed, the site will provide a 15-acre park for the residents of the El Nido area. The site at present is an eucalyptus grove.

or returned without additional charge. The postmaster also suggested: "Get a few air mail and special delivery stamps, too, for speeding your greetings to friends you may remember at the last minute." "Buying stamps is one part of your Christmas shopping that can be completed really early. It will save you valuable time in December. When the holiday rush begins and the post office lines are long." She also advised early purchase of heavy fiberboard, sturdy wrapping paper, strong cord, and printed fourth class labels for parcel post.

Noted Educator To Discuss Role Of School in Sex Education

Known throughout the nation for his famous address, "Role of the School in Sex Education," Dr. Ralph Eckert, Chief of Parent Education, California State Department of Education, will speak at the Torrance High School auditorium at a free public forum, on "Helping Boys and Girls Grow up." This talk, with wide audience participation, will be held on Monday night, Nov. 27, at 8 o'clock.

Besides giving a address throughout America the "last word" on the important subject of helping boys and girls grow up, Dr. Eckert has written for a number of educational publications, including California Journal of Secondary Education, California Parent-Teacher, Elementary Principals Yearbook and Educational Leadership. Dr. Eckert has three children of his own—a boy 5, and two girls 7 and 9. He has served as regional consultant or parent education to the National Congress of Parents and Teachers.

Half of the time will be consumed by the lecture and the other half by a question-and-answer period based on audience reactions. If the audience has any questions on why children do certain things and how their so-called "discipline" should be improved, and how their questions on sex should be answered, Dr. Eckert will have the answer on a down-to-earth, simple, matter-of-fact, practical basis.

TURKEYS
for Thanksgiving
Your Thanksgiving Turkey is ready now at Safeway. And you can be certain it will roast golden-brown, tender, and delicious—sure to please everyone. Safeway's turkeys are carefully selected, eviscerated, ready for the oven, and as always, you can be sure the price is right. Get your turkey at Safeway today!

GOOD FRIEND OF THE FAMILY BUDGET

The telephone actually takes less of it than in 1940

1. Seems like the prices of most things you buy have about doubled, in the last ten years. Among the standout exceptions is your telephone service. There have been rate increases, of course, to help meet increased costs of furnishing service...higher wages, higher prices for materials, higher costs generally. But telephone rates have gone up far less than most other things. And that's only part of the story.

2. Telephone installers are making your service a better all-around bargain, too. When you buy a pound of something, you still get sixteen ounces...although the price may have doubled. Twelve items still make a dozen. But not so with telephone service. Your telephone dollars buy, on the average, twice as many available connections as ten years ago...for we've more than doubled the system in that time.

3. Today you can call more of the people you want to call...many more people can call you. And the calls you get are often more important than the calls you make. Yet average telephone rates have gone up less than half as much as the cost of living generally. They're up much less than our costs of providing service. It all comes down to this: Today telephone service can be purchased for fewer hours of work than in 1940. Your telephone is a mighty good friend of the family budget.
